

## Lifting Eye Starpoint RUD VRM

### Product information

Design: Octagonal lifting eye.

For bolts with min. quality class 10.9

**Material:** Forged of high strength steel.

**Marking:** According to standard, CE-marked, WLL, indication for the most unfavourable case.

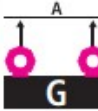

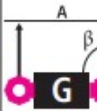

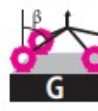

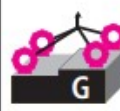

**Finish:** Striking fluorescent pink powder coating.

**Standard:** EN 1677-1

**Safety factor:** 4:1

At a lift with one strand and two parallel strands where the inclination angles are at the max. $\pm 7^\circ$ , the lifting method can be assumed as a vertical lift.					When lifting with two, three or four leg lifting means, inclination angles of less than $15^\circ$ shall be avoided, if possible (Risk of instability).
