

STA-SE Universal and Erection Anchor - one side

Product information

The Transport anchor STA-SE is suitable for loads from 0.7 up to 22.0 t. The transport anchor STA-SE is designed for the tipping of panels from a horizontal to a vertical position. The anchor is used for erecting and turning precasted thin wall units in one direction. The head of the anchor has a hole in which the locking bolt of the ring clutch is mounted. Other holes in the anchor are meant for further reinforcement. The head of the anchor is designed so that the load cannot be transferred to the upper part of the concrete surface.

The Starcon product is designed according to EN13155-2009 and follows the guidelines in VDI/BV-BS 6205 and DS/CEN/TR 15728.

Marking: CE-marked, UKCA-marked, Batch code, Load group+S (Starcon)

Finish: Untreated or hot dip galvanized
