

Chain Block POWERTEX PCB-S2OLP with Corolim® Chain

Product information

The Powertex PCB-S2 OLP Chain Hoist is a high-quality chain block designed to provide durability, safety, and ease of operation. With its ergonomic hand chain, advanced features, and built-in overload protection, this chain hoist ensures smooth and efficient lifting for various industrial applications. This OLP version has an integrated Overload Protection, which ensures safe lifting and prevents unintended overloading of the hoist.

Product benefits:

- Overload protection device: the OLP hoists are factory-equipped with an Overload Protection device, which limits the maximum
 operating force that can be applied using the hand chain, ensuring safe and controlled lifting operations.
- Enhanced safety: each hoist undergoes dynamic proof load testing at 1.5 times the Working Load Limit (WLL) before leaving the
 factory, ensuring maximum safety and reliability. The hoist is equipped with a well-covered automatic load reaction brake and features
 double safety with two brake pawls and four brake springs, exceeding EN 13157 requirements. The load chain is calibrated, proof
 load tested and meets the requirements of EN 818-7.
- Smooth and efficient operation: the compact and lightweight construction, combined with a sprocket wheel equipped with needle
 bearings and a drive shaft supported by needle and slide bearings, ensures smooth and efficient operation. The fine-calibrated
 European-made COROLIM® protected load chain offers quiet and seamless performance.
- <u>Load chain with superior corrosion resistance</u>: the unique COROLIM® surface treatment of the load chain provides excellent corrosion protection, equivalent to ISO944-9 C5High / ISO9223 C3 standards, ensuring long-lasting durability even in harsh environments.
- <u>Easy positioning and safe hooks</u>: swivel hooks at both ends make in-line positioning easy. The hooks are designed to open at overload instead of breaking, enhancing safety. Heavy-duty steel safety latches and deformation check dots forged into the side of the hooks allow for easy overload detection.
- <u>Convenient maintenance and documentation</u>: each hoist is RFID-equipped for easy service and inspection, and a QR code provides
 on-site access to multilingual user manuals. A test certificate and Declaration of Conformity are enclosed with each hoist, ensuring
 compliance and traceability.
- Available spare parts: spare parts such as hooks, brake discs, safety latches, and chains are readily available, ensuring that

maintenance and repairs can be carried out efficiently and further extending the hoist's service life.

Product options:

• Chain bag: an optional chain bag is available for added convenience and organization.

Material: Durable all steel construction

Marking: According to standard, CE-marked, UKCA-marked, POWERTEX, Model, WLL, Chain, Serial number, User manual/QR code

Temperature range: -10°C up to +50°C

Finish: Red powder coated body and plated frame components

Standard: EN 13157, EN 818-7

Safety factor: 4:1
