

Magnus USLM Strapping, Signode

Product information

Signode Magnus® is cold-rolled, heat-treated, medium carbon steel strapping that provides high tensile strength and excellent shock resistance for the heaviest-duty applications. Its smooth, hard, low-friction surface enables you to pull straps tighter around corners to obtain an even distribution of tension. Magnus® is available in two finishes: painted and waxed, and zinc coated and waxed. Each is tailored to the requirements of particular tensioning methods, sealing devices and packaging applications.

Material: Steel

Finish: Painted
