

## Ferrule GERRO™ COMBI GC-EK Talurit®

### Product information

A shorter ferrule that are swaged over two rope parts to form an eye. This assembly is perfect for multiple different ways of anchoring. To avoid wear and tear a thimble can be incorporated in the eye. The EK ferrules are swaged in press dies with rounded pocked ends.

| Код товара   | Код     | Ferrule size<br>mm | Max load<br>kN |
